SUMMARY

Computer Science Engineering student with a strong problem-solving mindset and hands-on experience building practical solutions to real-world challenges. Driven to understand user needs, translate requirements into effective solutions, and develop reliable, intuitive, and impactful software applications.

PROFESSIONAL EXPERIENCE

TR Tech NexZen Solutions Pvt. Ltd. | Web Full Stack Intern
June 2026 - July 2026 | [Certificate link](#)

- Completed a Web Full Stack internship, gaining practical exposure to full-stack web development concepts.
- Applied web development concepts through hands-on learning and practical implementation during the internship.

PROJECTS

RailGateStatus - Level Crossing Management System
July 2026- Aug 2026

Role: Full-Stack Developer

- Engineered a full-stack level crossing management system to automate railway crossing information and operational status tracking.
- Built robust CRUD operations and optimized database queries in MySQL to handle real-time status updates and search workflows.
- Implemented role-based access control (RBAC) to enforce strict operational permissions across Admin, Manager, and User tiers.

RailNav - Railway Station Navigation & Facility Locator
May 2026 - July 2026

Role: Full-Stack Developer

- Developed a full-stack station navigation web application using React.js, Flask, Python, and MySQL to manage route data and facility mapping.
- Implemented Dijkstra's shortest-path algorithm to dynamically compute optimal in-station paths, integrated with Leaflet maps and interactive UI components.
- Secured backend endpoints utilizing JWT authentication and standardized RESTful APIs for safe user session management

ACHIEVEMENTS

Reliance Foundation Undergraduate Scholar (2023 - 2027)

- Selected among the top 5,000 students nationwide out of over 100,000+ applicants through a rigorous multi-stage aptitude and merit evaluation.
